Libera Accademia
di Belle Arti

LABA - Libera Accademia di Belle arti

The Liberal Academy of Fine Arts of Florence, an institute of top level artistic training, independent body of L.A.B.A. of Brescia, legally recognized by the Italian Ministry of Universities and Research with M.D. of 27/04/2000, is based in Florence.

The L.A.B.A. has been the first fine art academy in Tuscany to offer courses of 3 plus 2 years (restructured duration) for short degrees and specialization degrees in the following subjects: **Visual Arts - Painting, Photography, Graphic Design, Design and Fashion Design.**

Situated in the southern zone of Florence, the L.A.B.A. site occupies around 1.000 square metres with recreational space in front, a garden behind and laboratories furnished with multimedia equipments of

the latest generation.

The Academy has gradually become a real melting pot of races and ideas, of continual ethnic and cultural exchange, a place where young people of diverse customs, cultures, religions and ethnic groups meet up, discuss and develop their own knowledge and skills of art, creativity, beauty and harmony.

The Laba has created synergies with public and private institutions. Because of these cooperations, students have the possibility to establish contacts with the working world and concrete working opportunities.
